Half-height swing doors
Pedestrian guiding bars
Card reader posts

Accessories for swing doors, pedestrian guiding bars and card reader posts

Matching
Functional
Comprehensive

Adaptable design
The use of suitably designed swing doors, pedestrian guiding bars and card reader posts allows us to provide barrier-free access to our customers while at the same time ensuring a smooth process with automatic release.

Half-height swing doors
The swing doors are similar in design to dormakaba's half-height access units. They complement the access units and are ideal for goods transport or as barrier-free access for wheelchair users. All automatic swing doors can be connected to access control systems.

Pedestrian guiding bars
Pedestrian guiding bars professionally block all half-height dormakaba units from the immediate environment. Pedestrian guiding bars bridge gaps to walls, lifts or to the reception. The timeless stainless steel design elegantly fits into any environment. All pedestrian guiding bars are suitable for installation outdoors.

Card reader posts
High-grade stainless steel reader posts round off all dormakaba access systems. Readers for access control are professionally integrated within them. The slot is linked to the read function with certain supporting columns, to ensure that identity cards can be returned with ease on leaving a building or premises.

Benefits of half-height swing doors, pedestrian guiding bars and reader posts

An ideal addition for every entry system

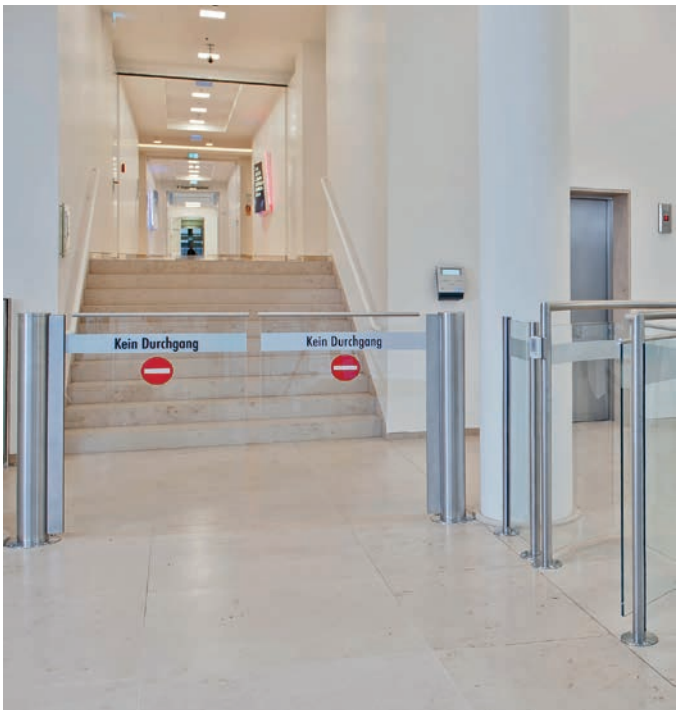
Half-height swing doors, HSD
- Adaptable design
- Delicate transparent elements in stainless steel and glass
- Ideal addition for tripod barriers, half-height turnstiles, sensor barriers and for goods transportation and barrier-free access
- Comfortable passage with servo drive
- Quiet, noiseless operation
- Unit also opens under load
- Unit locks in any position
- Separation of drive and locking forces
- Low energy consumption
- Suitable for use in emergency and escape routes
- Simple assembly on finished floor level

Pedestrian Guiding Bars, PGB
- With or without glass panel
- Simple assembly on finished floor level
- Suitable for outdoor installation

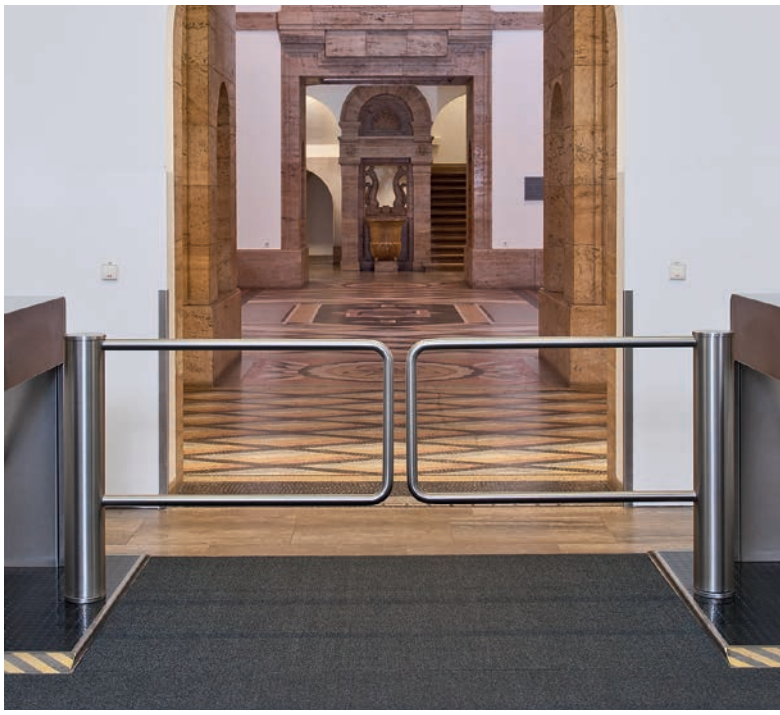
Card Reader Posts, CRP
- Prepared for customer installation of a Legic® LA-PP antenna and dormakaba AM control unit
- Adaptation to other reader systems is possible
- Presence detection for unreadable cards
- Simple assembly on finished floor level
- Weather protective hood for outdoor installation

The automatic half-height swing doors offer a barrier-free solution.

The ideal solution for any entrance



Door column and door leaf raised to upper edge 1200 mm

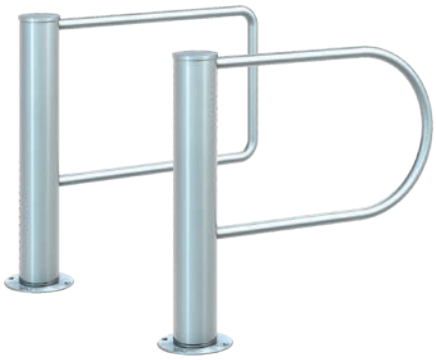


Mobile application on pallet

Card reader post with escape route terminal

Card reader post combined with swing door and pedestrian guiding bar

Half-height swing doors



Standard units		HSD-E01 HSD-E02	HSD-E03
Construction	Tubular column	Made of AISI 304 stainless steel, Ø 140.	Made of AISI 304 stainless steel, Ø 140.
	Barrier element	U-shaped, Ø 40 made of AISI 304 tubular stainless steel.	Full-height glass element, 10 mm TSG with straight handle bar.
	Leaf radius	900	900
	Leaf upper edge	900	900
		Locking system, drive and toothed holding brake installed in tubular column.	Locking system, drive and toothed holding brake installed in tubular column.
Finish		Stainless steel satin finish.	Stainless steel satin finish.
